Looking for a full-time job to be provided with the opportunity to gain any work experience in computer science.

EXPERIENCE

[Nookmart](#), Casper, WY — E-commerce Game Integration Specialist

December 2020 - August 2021

C++, HTML, CSS

"Jailbreaking" a Nintendo switch system meant to exploit vulnerabilities in the operating system to remove manufacturer-imposed restrictions, essentially giving the user full control over the system.

Create a GUI to speed up the delivery process by syncing IP addresses of Nintendo Switch systems as well as parsing HTML and executing delivery orders through it.

Respond to live customer questions in a friendly and timely manner.

Deliver orders in a timely and friendly manner.

Communicate with a team (team were people from several countries to cover 24/7 support for the website) though discord.

Center for Instructional Innovation and Assessment, Bellingham, WA — *Web Developer*
